
Objective

Senior Software Engineer specializing in WebMethods, EDI, SAP integrations, and API-driven middleware solutions. Proven expertise in designing scalable enterprise B2B systems, optimizing high-volume transaction workflows, and delivering high-availability production solutions. Strong background in cloud platforms, cross-functional collaboration, and end-to-end integration architecture.

CORE SKILLS

Integration & Middleware: webMethods On-Prem, webMethods.io, B2B, MWS, SAP Integration

EDI Standards: X12, EDIFACT, XML

API Development & Testing: REST, SOAP, Postman

Cloud & Platforms: AWS, Mulesoft Anypoint Studio & Platform

Architecture & Leadership: Integration Design, Interface Ownership, Production Support, Code Reviews, Technical Mentoring

Programming: Java, Spring Boot, Servlets, HTML, CSS, JavaScript, Angular

Databases: Oracle, MySQL

Tools: GitHub, Eclipse, Visual Studio

ITSM & Agile: ServiceNow, Zendesk, Azure DevOps (ADO), Agile/Scrum

PROFESSIONAL EXPERIENCE

Senior Software Engineer • HCL Technologies

November 2021 – Current

WebMethods Developer & EDI Analyst

- Designed and implemented enterprise integration solutions using webMethods for SAP ERP and B2B transactions.
- Built and configured Trading Partner profiles, TPAs, Processing Rules, and document types in webMethods B2B.
- Developed REST and SOAP APIs enabling seamless partner onboarding and real-time data exchange.
- Implemented over 35 new integration interfaces across orders, acknowledgements, deliveries, and invoices.
- Enhanced 30+ existing interfaces, improving performance, reliability, and business alignment.
- Managed production environments ensuring 99% uptime through proactive monitoring and troubleshooting.
- Executed deployments using webMethods Developer and GitHub CI workflows.
- Conducted unit, system, and end-to-end testing using Postman and integration test scenarios.
- Resolved incidents and service requests through ServiceNow and Zendesk within SLA targets.
- Collaborated with business stakeholders to gather requirements and deliver scalable middleware solutions.

- Led end-to-end design and delivery of enterprise integration solutions across SAP and B2B platforms using WebMethods
- Owned architecture decisions for high-volume EDI and API workflows improving system reliability and performance
- Mentored junior developers and supported code reviews, best practices, and production readiness
- Acted as primary technical point of contact for complex integration initiatives

POLARIS Project – ERP & Middleware Migration

- Solely designed pilot customer interfaces and created reusable integration templates.
- Built proof of concepts (POCs) to validate integration approaches.
- Authored detailed technical documentation for knowledge transfer and scalability.

Intern • HCL Technologies

November 2020–November 2021

- Developed applications using Core Java and Spring Boot.
- Built frontend interfaces using HTML, CSS, JavaScript, and Angular.
- Worked with Oracle and MySQL databases for backend operations.

Certification

AWS Certified Cloud Practitioner

AmazonWebservices-Issued Jan 2023–Expires Jan 2026

webmethods.io B2B associate

SoftwareAG-Issued Jan 2023

webmethods.io Integration associate

SoftwareAG-Issued Jan 2023

webMethods B2B SaaS Basic

IBM – Issued on Jan 2023

webMethods Integration SaaS Basic

IBM – Issued on Jan 2023

webMethods Integration On-Premises Basic

IBM – Issued on Feb 2026

Education

SASTRA University, Thanjavur , TN

Bachelors in Computer Application

Graduated: February 2025

CGPA: 8.5

Relevant Coursework : Operating Systems, Data Structures and Algorithm, Financial Accounting, Discrete Mathematics, Digital Logic circuits and Microprocessors.
